

Minimally invasive haemodynamic surgery of the popliteal fossa

Delfrate R., Bricchi M., Franceschi C.

cdc Figlie di San Camillo - Cremona

We show a video about the minimally invasive treatment of the popliteal diastolic or sistolic-diastolic reflux into the SSV and Giacomini vein . We 'll show different reflux patterns in the Giacomini Vein , a mixed shunt and a classic 1+2 shunt involving the SSV, explaining the CHIVA strategy to achieve the normalization of the TMP
